★★★★☆ (7 Reviews)

[Write a Review](#)

[ADD TO WISH LIST](#)
[ADD TO REGISTRY](#)

The innovative, smooth-running Breville 5-quart die-cast stand mixer cuts mixing time tremendously. The scraper beater's flexible edges continuously fold and scrape the sides and bottom of the stainless-steel bowl, virtually eliminating the need for hand scraping with a spatula.

The powerful 550-watt machine features load-sensing motor protection sensors that detect heavy mixtures and automatically adjust to sustain selected speed. Planetary mixing action offers 360 degree beater-to-bowl coverage for thoroughly mixed ingredients. The 12-speed electronic variable controls ensure mixing precision for quicker mess-free baking preparation, as well as a count-up and count-down timer. The pouring shield reduces spatters and spills when mixing and adding ingredients. Lift assist handles on the mixer head and base provide easy handling and maneuvering.

[Specifications](#)

[Reviews \(7\)](#)

### Specifications

- Model: BEM800XL
- Capacity: 5 qt.
- Watts: 550
- Size: 14 3/4"W x 8 3/4"D x 14"H
- Weight: 18 lbs. 8 oz.
- Material: Solid die-cast metal, stainless steel, plastic

### Care and Use

- To clean after use, ensure the power cord is unplugged and the speed control dial is in the off position.
- Wash the mixing bowl, pouring shield, spatula, scraper beater, flat beater, wire whip and dough hook in warm soapy water with a soft cloth. Rinse and dry thoroughly. Alternatively, the mixing bowl, pouring shield, spatula and attachments may be washed in the dishwasher (spatula and attachments, top shelf only).
- Do not use abrasive scouring pads or commercial cleaners when cleaning the mixing bowl, pouring shield, spatula, scraper beater, flat beater, wire whip or dough hook as these may scratch the surface. Also ensure that the attachments are not soaked in water for extended periods of time, for example several hours or overnight, as this may damage their finish.
- Wipe the mixer head, attachment shaft and mixer base with a soft, damp cloth then dry thoroughly. Wipe any excess food particles from the power cord.
- Do not wash or immerse the mixer head and mixer base in water or any other liquid. Clean with a soft, damp cloth and dry thoroughly. Do not allow water or any liquid to enter the gear system as damage may result.
